

## Company Information

### CiVentiChem

CiVentiChem has been providing excellent services to customers since 1994. Founded by scientists from Duke University as Universal Organics, we have successfully worked with pharmaceutical, agrochemical and biotechnology companies of all sizes. Our modern laboratory is located in Cary, North Carolina, in the vicinity of Research Triangle Park. We have access to this extensive scientific community as well as the highly skilled work force from major universities including Duke, University of North Carolina and North Carolina State University.

Our Ph.D. scientists have a combined total experience of more than 250 years in synthetic organic chemistry, medicinal chemistry and business management.

### Indus BioSciences

Indus BioSciences, a subsidiary of CiVentiChem, is located in Hyderabad, India. Its modern laboratories are located in the vicinity of internationally renowned laboratories like the Indian Institute of Chemical Technology (IICT), the Center for Cellular and Molecular Biology (CCMB) and Osmania University. It is equipped with all the modern equipment and analytical tools necessary to carry out multi-step complex organic synthesis.

Indus BioSciences is staffed with highly trained Ph.D., MS and BS chemists who are well experienced in medicinal chemistry, scale-up synthesis, process R&D, new route development, and synthesis of building blocks, intermediates and APIs. It has established excellent relationships with several multi-national companies.
